DETAILED ACTION

Remarks

1. The Request for Reconsideration filed on January 20, 2006 has been received and entered. Claims 1-24, and 27-32 are pending. Claims 1-24 are withdrawn from consideration.

Priority

2. The translation of the foreign application submitted under 37 CFR 1.55 on January 20, 2006 in reply to the previous office action is hereby acknowledged and accepted.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 4. Claims 27-32 are rejected under 35 U.S.C. 102(e) as being anticipated by Rivette et al. (U.S. Patent No. 6,499,026).

As to claim 27, <u>Rivette et al.</u> discloses an information processing apparatus for accumulating technical documents relating to a patent application, comprising:

accumulation means for accumulating information about a related prior art document which has been cited by the patent office for examining the patent application and a foreign

patent application corresponding to the patent application (See Figure 86, step 8610, also see Figure 90, and see column 28, lines 15-25); and

display control means for displaying a list of the prior art documents of a said patent application and a list of the foreign patent application corresponding to said patent application accumulated in said accumulation means in the same window (See Figure 40, also see column 28, lines 49-61).

As to claim 28, Rivette et al. discloses

wherein said display control means displays a flag indicating whether or not a prior art disclosure procedure has been performed on the prior document (See Figure 89, step 8412, also see column 90, lines 14-21).

As to claim 29, Rivette et al. discloses

wherein said display control means displays descriptions indicating correspondence between the prior art document and a rejection reason (See Figure 125, shows note/annotation can be added w/ text description related to reference and rejection, also see column 26, lines 53-67).

As to claim 30, Rivette et al. discloses

wherein said display control means displays a list of applications by which the prior art document has been cited relating to the prior art document (See Figure 145A, shows browser displays document having listing of prior art, also see column 66, lines 9-22).

As to claim 31, Rivette et al. discloses

an information processing method for accumulating technical documents relating to a patent application, comprising:

accumulating information about a related prior art document which has been cited by the patent office for examining the patent application and a foreign patent application corresponding to the patent application (See Figure 86, step 8610, also see Figure 90, and see column 28, lines 15-25); and

displaying and controlling a list of the prior art documents of a said patent application and a list of the foreign patent application corresponding to said patent application accumulated in said accumulation step in the same window (See Figure 40, also see column 28, lines 49-61).

As to claim 32, Rivette et al. discloses

a program storage medium storing a program for realization an information processing method for accumulating technical documents relating to a patent application, comprising the steps of:

a code for realizing an accumulation step of accumulating information about a related prior art document which has been cited by the patent office for examining the patent application and a foreign patent application corresponding to the patent application (See Figure 86, step 8610, also see Figure 90, and see column 28, lines 15-25); and

a code for realizing a displaying and controlling a list of the prior art documents of a said patent application and a list of the foreign patent application corresponding to said patent
